Winemaking

Grapes are manually harvested and sorted twice, first when they arrive at the winery as bunches and then again after de-stemming by an optical sorter. The whole berries are immediately put into French oak fermenters.

Alcoholic fermentation The fermentation lasts for 20 days in temperature-controlled tanks. Remontage occurs every 8 hours and one delestage per week. A long maceration occurs after fermentation.

Malolactic fermentation In 600 lt small casks

Maturation The wine rests 12 months in 600 lt small casks of which 6 are on the fine lees, and 9 months in 25 hl Austrian oak casks. 3 months in concrete tanks just before bottling and a further 6 months in bottle.

Tasting notes

This is a sensual wine with notes of cherry fruit, tobacco, leather and hints of licorice and spice. The elegant tannins balance nicely with the fruit, all underlined by a fabulous stratum of acidity, making this a complex wine with incontestable structure and power. A long and satisfying finish confirms this Sangiovese is true to its terroir.
