Plant density 11,000 plants per hectare

**W**inemaking  
Grapes are firstly selected during harvest in the vineyard and then by an optical sorter when they arrive to the winery; they are destemmed and the whole berries are immediately put into French oak fermenters.

**Alcoholic fermentation** Fermentation is temperature-controlled and the must is kept in contact with the skins for about 30 days.

**Maturation** The wine rests for 24 months in barriques (70% new and 30% used one year), of which 6 months are spent resting on the fine lees.

**T**asting notes  
The wine has a deep ruby red color. The nose displays hints of green pepper, licorice and graphite melted with oak vanilla flavors. Full bodied with a ripe fruit palate, LEGIT has the potential to age for a long period of time, which is typical of the Cabernet Sauvignon produced in the Castelnuovo Berardenga Area.
